A Corrigendum on

Patterns of diversification amongst tropical regions compared: a case study in Sapotaceae
by Armstrong, K. E., Stone, G. N., Nicholls, J. A., Valderrama, E., Anderberg, A. A., Smedmark, J.,
et al. (2014). *Front. Genet.* 5:362. doi: 10.3389/fgene.2014.00362

In the sixth paragraph of the Discussion section entitled “Regional Diversification in *Manilkara*,” in the sentence beginning “In Sapotaceae four lineages of *Isonandreae* have migrated...” the citation of Swenson et al., 2008 should instead be: Swenson, U., Nylinder, S., and Munzinger, J. (2014). Sapotaceae biogeography supports New Caledonia being an old Darwinian island. *J. Biogeogr.* 41, 797–809. doi: 10.1111/jbi.12246

Additionally, in the second paragraph of the Supplementary Material section entitled “Evidence for Chloroplast Capture?” in the sentence beginning “The species *Chrysophyllum cuneifolium* is inferred to have originated...” the citation of Särkinen et al., 2007, should instead be: Swenson, U., Richardson, J. E., and Bartish, I. V. (2008). Multi-gene phylogeny of the pantropical subfamily Chrysophylloideae (Sapotaceae): evidence of generic polyphyly and extensive morphological homoplasy. *Cladistics* 24, 1006–1031. doi: 10.1111/j.1096-0031.2008.00235.x
